

This Assignment contains solution for below requirement.

Using Responsive Web Design that I have learnt in this level, I have created a single page website of my own which will serve as your portfolio. It has the following sections: -

- 1) A section describing myself with my photo. I have taken liberty write anything about me including my hobbies etc.
- 2) A section describing my interests in technologies. I have written names of all the technologies that I'm interested in learning now and in future.
- 3) A section describing my professional experience (if you have any) till now.
- 4) A project section which contains all the web related work you have done till now (if you don't have any, just mention this portfolio website itself that you are creating).

The web-site has been tested for following devices using chrome emulator: -

- a) Galaxy S5
- b) Pixel 2
- c) Pixel 2 XL
- d) iPhone 5/SE
- e) iPhone 6/7/8
- f) iPhone 6/7/8 Plus
- g) iPhone X
- h) iPad
- i) iPad Pro
- j) Laptop

Steps
